

952 Panther XT Plus – Zone Rated 1000m WCROV

Shelf Subsea selected the Saab Seabeve Panther XT Plus as the preferred Light Work Class ROV for the conduct of all of our Inspection Work and general light construction roles. The ROV's ease of mobilization, operation and power to weight ratio makes it the ideal multitask ROV for the offshore and constructions industries.

Fitted with a Tether Management System and Snubber Rotator, the Panthers 10 thrusters make it one of the most powerful ROV's of its type in the world and able to operate in currents up to 3knots.
